It happens to all of us. You carefully plan your lesson. You excitedly start teaching. Then you recognize that dreaded this-lesson-is-too-easy look on your gifted students' faces. You realize your approach might be too conventional. Fear not! In this hour-long session, find out how you can instantly turn any lesson around using simple, effective advanced differentiation strategies that increase engagement and challenge for your gifted learners. Let's keep our gifted students motivated, engaged, and learning!
